

Hi! I'm

I deliver unforgettable experiences – to your guests and to your staff.

Your guests will love how easy and effortless it is to text with me 24x7 – using their own phones. I'm smart (I understand emojis too, not just keywords!) and fast (I respond in 1 second or less).

Your staff will love how intuitive and efficient I am as their new member. I'll take care of your guest's more routine questions, and pass along the more complex one to a human team member.

I can do more.

40 million guests across North America have met Ivy®. Ivy Offer is already helping hotels across North America book additional nights and increase on-site spending.

Ivy Offer

Want more heads in beds? Late checkouts? With Ivy Offer, I can treat your guests to all these offers via text, on their own phones.

When guests check in, I'll ask if they want to receive these offers, and all they have to do is say yes! They can also ask me questions about the offers and I'll reply or flag it to your team if I can't handle it.

It's easy.

GET CUSTOMER OPT-IN

When you introduce a guest to Ivy at your property, I'll text them to ask if they want to opt in to receive exclusive offers.

OFFER DEALS, DISCOUNTS AND MORE

If they say yes, you decide what offers you want to send their way, and when. Inviting guests to extend their stay at an unbeatable price or offering a late checkout the night before are sure-fire winners.

EFFICIENT AND IN CONTROL

Your guests confirm interest in the offers via text too - making the whole process an easy, unforgettable experience!

With Ivy Offer, your staff will always be in control - confirming the pricing and locking it in.

Want to hear more? Or see me in action? Ask for a demo.

DON'T FORGET TO ASK ABOUT IVY PAY

With Ivy Pay, guests can pay additional fees like parking or resort fees via text. Ivy Offer is part of the Ivy Experience Suite - including Ivy Pay.

Gomoment™ Delivering unforgettable experiences.

We connect the hospitality industry with their guests – delivering unforgettable experiences to both. Ivy, our AI enhanced communications platform, interprets sentiment and intent while delivering 1-second responses. Additional terms apply.
